

NFL Data

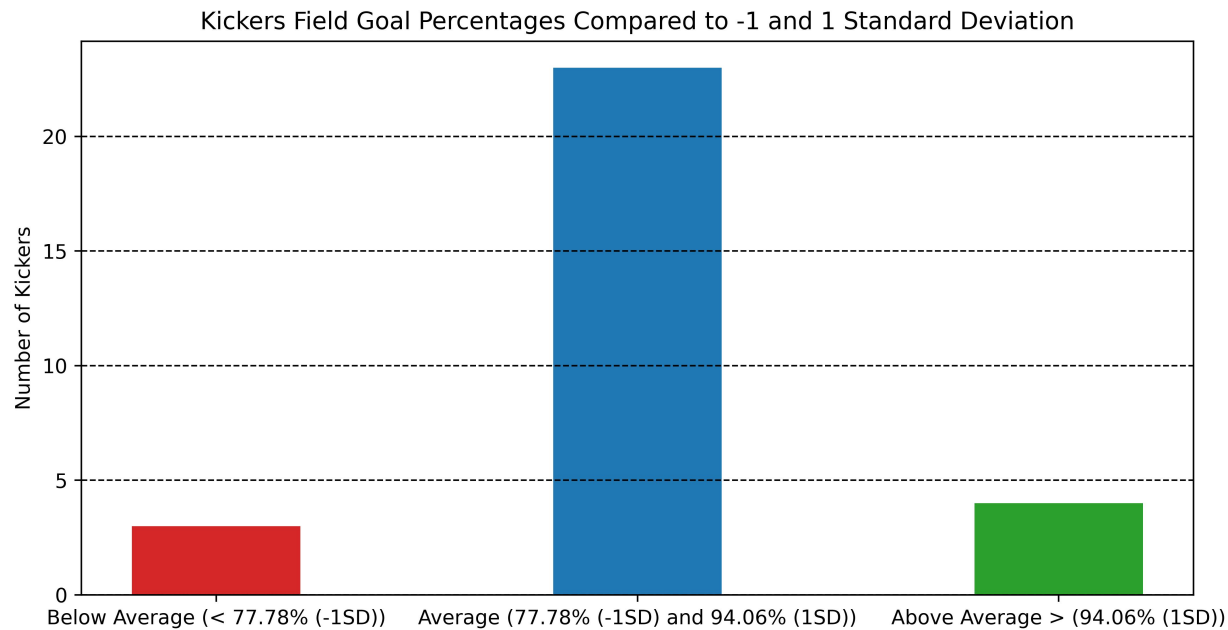

Across the league, NFL kickers were successful with kicking Field Goals 85.92% of the time. The Average NFL kicker was successful between 77.78% and 94.06% on Field Goal Attempts. 3 kickers (10.0%) performed below average, well 4 kickers (13.33%) performed above average. The remaining 23 kickers (76.67%) fall in this range.

Percentages of Kickers in Each Category Based on SD

Another way we can view this data is with a histogram. The histogram will show us any skews that might appear within our data/where the outliers are. If...

- The red tower(left) and the green tower(right) are roughly the same, then the graph is roughly symmetrical and we have a similar amount of outliers in either direction
- The red tower is taller than the green tower, then there are more outliers that fall in the below average range
- The green tower is taller than the red tower, then there are more outliers that fall in the above average range

Below is the list of individuals kickers listed by name in each category...

Below 94.06%(-1SD)	Between 94.06% and 77.78%	Above 77.78%(1SD)
Chad Ryland	Jason Myers	Brandon Aubrey
Joey Slye	Matt Gay	Harrison Butker
Brett Maher	Cairo Santos	Nick Folk
	Greg Zuerlein	Ka'imi Fairbairn
	Justin Tucker	
	Blake Grupe	
	Brandon McManus	
	Younghoe Koo	
	Dustin Hopkins	
	Wil Lutz	
	Anders Carlson	
	Cameron Dicker	
	Matt Prater	
	Jake Elliott	
	Evan McPherson	
	Chase McLaughlin	
	Chris Boswell	
	Greg Joseph	
	Daniel Carlson	
	Tyler Bass	
	Eddy Pineiro	
	Jason Sanders
